

# Business Continuity Planning :-

Organization ko, for risk ko find out krna, policies, procedure, process krna, BCP krna, Business ko impact ko, disaster ko.

Business Continuity Planning	Disaster Recovery Plan
<ul style="list-style-type: none"><li>* Business ko for process ko, operation ko krna ko Disaster ko krna ko process ko for ko run ko, ko center ko for maintain ko, ko high level decision ko krna BCP.</li><li>* Strategic decision</li></ul>	<ul style="list-style-type: none"><li>* Disaster ko krna ko, ko for ko ko ko disaster recovery plan.</li><li>* <del>Disaster</del> recovery sites, backups and fault tolerance ko ko disaster recovery plan ko ko.</li><li>* Tactical decision</li></ul>

## BCP 4-2 Steps :-

- \* (i) Project scope and planning
- (ii) Business impact analysis
- (iii) Continuity planning
- (iv) Approval and implementation

The top priority of BCP and DRP is always people!

## Project Scope and Planning :-

- \* Business to crisis to plan
- Planning to 2m 2m after 2m
- \* BCP team to be 20 to 30  
senior management to approval 2m 2m
- \* business continuity activity
- to participate to 2m resource

25 resource management, 15 minutes for 20 minutes  
\* Catastrophic event is that which crosses  
legal and regulatory landscape  
boundaries and which requires a new  
level of response and action.

## Organizational Review :-

\* Operational departments :- operational  
department is responsible  
department.

Critical Support Services :- Operational  
department is critical to IT  
department important, and which  
operation department of 25 minutes  
responsibility IT department is.
